

Python Backend Developer - Detailed Job Description

Company Information

Company: TechNova Solutions Pvt. Ltd.
Industry: SaaS / Cloud Computing / AI Solutions
Company Size: 850+ Employees
Head Office: Bengaluru, Karnataka
Work Location: Bengaluru (Hybrid – 3 days office)
Employment Type: Full-Time
Experience: 2–5 Years
Salary (CTC): ₹8–14 LPA (Typical Offer: ₹11.9 LPA)
Joining: Immediate to 30 Days Preferred
Reporting To: Engineering Manager

About the Company

TechNova Solutions develops enterprise cloud software for logistics, healthcare, and fintech clients. The engineering team builds scalable cloud-native backend systems serving millions of API requests daily.

Job Summary

Design, develop, test, and maintain scalable backend applications using Python. Build REST APIs, optimize SQL databases, deploy cloud-native applications, and collaborate with cross-functional teams following Agile practices.

Key Responsibilities

- Build backend services using Python.
- Develop REST APIs using FastAPI, Django REST Framework, or Flask.
- Design relational database schemas and optimize SQL queries.
- Integrate third-party APIs using JWT/OAuth2 authentication.
- Write unit and integration tests using pytest/unittest.
- Containerize applications using Docker.
- Deploy applications on AWS.
- Participate in code reviews and Agile ceremonies.

Required Technical Skills

Programming: Python (Advanced), SQL (Advanced)
Frameworks: FastAPI, Django, Flask
Databases: PostgreSQL, MySQL
Cloud: AWS EC2, S3, RDS
DevOps: Docker, GitHub Actions, Jenkins (Preferred)
Version Control: Git, GitHub
Testing: pytest, unittest
Linux, REST APIs, JSON, Swagger/OpenAPI

Preferred Skills

Redis, RabbitMQ, Kafka, Kubernetes, Celery, Microservices, WebSockets, Pandas, NumPy, Prometheus, Grafana.

Soft Skills

Problem Solving • Analytical Thinking • Teamwork • Communication • Time Management • Attention to Detail

Educational Qualification

Bachelor's Degree in Computer Science, Information Technology, Artificial Intelligence or Software Engineering.

Preferred CGPA: 7.5+/10

Selection Process

Round 1 – Online Coding Assessment (Python, SQL, DSA)

Round 2 – Technical Interview (Backend Development)

Round 3 – System Design Discussion

Round 4 – HR Interview

Employee Benefits

Hybrid Work • Medical Insurance • Performance Bonus • ESOPs • Learning Budget (■50,000/year)
• Paid Certifications • Laptop Provided • Internet Reimbursement • 24 Paid Leaves

Compensation Breakdown

Fixed Salary: ■10,20,000

Performance Bonus: ■1,20,000

Joining Bonus: ■50,000

Total CTC: ■11,90,000
